

collarium®

GENTLE TANNING - VITAMIN D - COLLAGEN

*The modern
way of
tanning!*

www.collarium.ch

A NEW ERA OF TANNING HAS BEGUN.

collarium®

The unique light therapy concept combines
the spectrum of UV and red light.

- ✓ Improved direct tanning
- ✓ Optimum vitamin D intake

With red BeautyLight

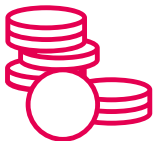

- ✓ Creates smooth, soft skin
- ✓ Stimulates collagen production
- ✓ Protects the cells against free radicals
- ✓ Less skin odour

BECOME A COLLARIUM® LICENSED PARTNER

ADDED VALUE FOR YOUR CUSTOMERS

The combination of UV and red light achieves significantly improved direct pigmentation, increased skin compatibility and a smooth complexion. Less tanning odours are left on the skin. **Your customers will love the Collarium®!**

MORE MONEY IN YOUR TILL

Our experience with **Collarium®** equipment shows us that former solarium users or new customers visit the tanning studio. Our marketing tools help you to generate new customers and increase sales.

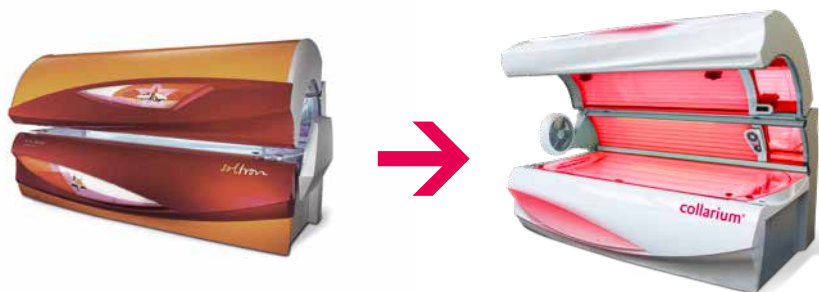

READY FOR THE NEW REGULATION

The new solarium regulation entered into effect on 1 June 2019, which introduced a significant reduction in radiation intensity that can be balanced out using red light. We will be happy to advise you.

CLEVERLY CONVERT AND INCREASE SALES!

Impress your customers with a state-of-the-art Collarium®. Most tanning studios have converted to using the new Collarium®. If desired, we also offer a complete solarium facelift for your existing equipment including repainting and corresponding LED lighting.
